Re: Mr. Sunit Patel

To whom it might be of interest:

I have worked with Sunit for a period of a few months and have maintained contact with both Sunit and other members of the firm that employed him since that time. There is no doubt that the success and ability to finance and advance his former company, Chaarat Gold was entirely due to Sunit's efforts. Although he was tasked to head up exploration, he also contributed on a daily basis to operations, camp management, planning, and in essentially all organizational matters of the company.

As an explorationist, Sunit is excellent, with an ability to keep complex problems advancing and manage enormous amounts of data coming from various sources. Sunit manages all of this with an even disposition, complete gentility, and is really a joy to work with.

I recommend few people if any higher than I would recommend Sunit Patel.
